

## NFX Reports Metrics Through March 2019 Trading Events

Starting with the inaugural Natural Fibre Exchange (NFX) trading event in May 2018, 22 trading events have occurred fortnightly through March 2019.

The March trading events saw the highest volume (or Nett kg) offered in trading events to date.

Since the inception of NFX, eight sellers have offered lots, ten buyers have submitted bids, and nine buyers have won lots.

The number of lots offered has ranged from 27 to 91, with offered nett kg ranging from 82,063 to 305,359 kg. Across all trading events, 88 percent of the offered lots and 87 percent of the offered nett kg have sold.

Summary results for NFX trading events can be found on the NFX Information Website at <http://www.naturalfibreexchange.com/Results/ResultsSummary.aspx> and detailed results for each trading event can be found at <http://www.naturalfibreexchange.com/Results.aspx>. ### **About the Natural Fibre Exchange**

Natural Fibre Exchange is an online platform established to connect buyers and sellers, providing trusted and transparent market-based reference prices, as well as an efficient selling and buying mechanism for wool and other natural fibre products sourced from New Zealand and other supply markets longer term.

### **How NFX Works**

All products in a trading event are on offer simultaneously over multiple rounds of bidding and continuing until there is a round with no new bids. NFX is open to all industry parties and service providers who meet the requirements of the *NFX Participation Agreement* to be a seller and/or a buyer. As a buyer you also must have pre-approval from a seller to bid on that seller's products. For more information or to register go to the NFX information site at [www.naturalfibreexchange.com](http://www.naturalfibreexchange.com).
